

## FOR IMMEDIATE RELEASE

Elite Supply Chain Solutions is excited to announce -  
We have moved to our new location!

### **Hudson, OH – April 24, 2015**

Elite Supply Chain Solutions (“Elite”) has moved into a new facility located at 1892 Georgetown Road in Hudson, OH 44236. We still offer all of the same great services offered at our previous location – just on a larger scale! Scott Hennie, President, will continue to lead the development and growth at our new location.

Elite strives to be a strategic partner with our customers and assist with their overall business strategy by implementing materials handling solutions to help achieve their goals. Elite works with customers to maximize operating space, organize inventory storage, review facility layout and design, recommend equipment, and implement automation and technology.

“Companies many times are so focused on their day to day business operations, they are unable to take the time to focus on long term strategies in their supply chain. This is where Elite steps in and offers long term solutions and recommendations.” states Mr. Hennie.

It has been a little over a year since Elite became part of the MH Logistics family. Since then, we’ve grown and added to our team, building on the fortune and blessings of strong orders and loyal clients and continue to build the business.

Today, the Elite Team is made up of Salespeople, CAD Designers, Project Engineers, and Project Managers. The Team is currently supporting projects across the Country and has the foundation and resources in place to add more.

Elite understands you have a choice when selecting a supply chain solutions provider. It’s our great pleasure to be included in the decision process and we look forward to helping you with your supply chain needs in the future!

For more information, please contact Scott Hennie at 855-548-0149 or by email at [shennie@elitescs.net](mailto:shennie@elitescs.net) or Dannelle Dahlhauser at 888-564-2191 or by email at [ddahlhauser@mhequipment.com](mailto:ddahlhauser@mhequipment.com)
